This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

PRELIMINARY REMARKS.

THE Library of Mt. St. Mary's Seminary, being an integral part of the Institution, is, and has always been, an object of the greatest care and solicitude to those interested in its advancement and perfection. That it has been, up to a very recent date, to a certain extent neglected or but indifferently cared for, will not be surprising to those acquainted with the history of the Institution. Like most libraries, its beginnings were humble; but by the solicitous care, unwearied energy, and generous liberality of those who have its interest at heart, its volumes have steadily increased in number and value, and now it may take its place among the great libraries of the land.

The Most Rev. J. B. Purcell, who, during his long and useful life, has begun and completed so many good works, destined to live after him and to be a blessing to others, has also the honor of having initiated this. While living on Sycamore Street, where at present St. Xavier's College stands, he opened a small Seminary, and, with a considerable collection of his own books, made the beginning of what is now Mount St. Mary's Library. Small as this collection may have been, compared with the number of volumes in the present library, it was important from the fact that it was a step in the right direction, and was indicative of the fostering care and energy His Grace has ever shown in the promotion of a high standard of education. This collection was gradually but steadily increased by donations sent to His Grace by generous friends and from foreign lands, notably from France, and might, had sufficient care been taken of it and a sad misfortune not befallen it, now be the most valuable and extensive portion of the library. In the year 1863, a disastrous fire broke out in the Seminary building, and was speedily making its way to the library. To save the books from imminent peril, they were pitched out from the windows without further thought than

to put them out of the way of the fiery element. When it is remarked that the library-room was at that time on the second floor, the amount of damage done the books will be appreciated. They were wet by water, torn, mutilated, and numbers lost; and this last will account for the fact that many sets are now broken and in the present catalogue registered incomplete (*inc.*) In addition to this loss, it is to be regretted that many persons have thought themselves privileged to take away books from the Library, and have felt under no obligation to return them.

The Seminary, in the meantime, had received many books by bequests, among which may be mentioned that of Rev. Father Langé, formerly of Lancaster, O., who left, as far as can be now ascertained, about 200 volumes. The Seminary is also indebted to the Rev. Michael Kennedy, formerly of Piqua, for a small number of works; and to the Rev. Father Wittler, late of Cumminsville, for 80 volumes. In 1851, the Seminary was removed from Sycamore Street to a hill on the western side of the city, now known as Mt. St. Mary's of the West. His Grace, in the autumn of 1865, gave the Seminary another munificent collection of 5,000 volumes, which he had got together with much labor and care. Of these many are of an ascetical and polemical character.

About the same time, Very Rev. Father Collins, well known to the citizens of Cincinnati as a lover of books, an untiring and judicious collector, and an elegant scholar, and to his many friends throughout the country as a gentleman and priest of refined manners, courteous bearing, and spotless character, died, having bequeathed his collection, valued at from $20,000 to $25,000, and numbering about 4,800 volumes, to His Grace the Most Rev. Archbishop of Cincinnati, who, in turn, transferred it to the Seminary.

An advanced seminarist was, during the following spring, set to work to arrange and catalogue the books; but after having spent a considerable portion of two years at the work, was called away before he could bring it to an end. His labors, though extensive and thorough in their way, have been of no service to the present librarian, as there is no similarity in the plans of arrangement and cataloguing adopted by each. In 1868, another attempt at cataloguing was made, but

proved futile. The books were removed, in the fall of 1871, from the old Library-rooms to the large and spacious hall which they now occupy. It was difficult to keep any sort of order while they were being transferred, and they were again thrown into a chaotic state. During the same fall, one of the professors, Rev. W. Quinn, D.D., was appointed librarian—the first regular appointee to the office from among the Faculty; but, owing to his numerous duties, little, if any, progress was made toward an orderly arrangement of the volumes.

In September of 1872, the present librarian received his appointment, and resolved, if possible. to put the library in such shape that it might be accessible and useful to both professors and students.

A plan of catalogue was therefore adopted, by which any book might be found with the greatest convenience and least possible delay.

The librarian is, in great measure, indebted, for the plan adopted, to the Catalogue of the Public Library of Cincinnati. He also wishes to acknowledge the valuable aid rendered by the students, and in particular by his able assistants, Messrs. Feldman, Houck, and Manning, the last of whom was frequently interrupted in his labors by illness.

While the work of cataloguing was in progress, Very Rev. E. Purcell sent a generous donation of 573 volumes, and Rev. D. B. Walker, one of 340.

From the Catalogue, it may be easily seen that no book, no matter how small its value, is refused; and hereafter a list of all books donated will be annually published.

The number of volumes in the present Catalogue is 14,168; this, however, does not include minor pamphlets. It has been thought better to publish at some future day a separate list of these. Their number cannot be definitely determined, but it will approximate 4,000.

The smaller maps and drawings are embodied in this Catalogue, as they frequently belong to books whose titles are here mentioned; but, apart from these, there is a rich collection of large maps, kept in recitation-rooms and halls, and a library of school-books numbering about 3,000 volumes, which have been left out.

It is the hope of the librarian that his work, faithfully and perseveringly performed, may serve the purpose for which it was undertaken, which is, not to make the library perfect as a model of artistic arrangement, but useful and easily accessible to himself and his assistants.
